

CALIFORNIA STATISTICAL ABSTRACT

The California Department of Finance has discontinued the production and distribution of **hard copies** of the *California Statistical Abstract*. We will continue to produce this annual report, but will only distribute it electronically via the Internet. We hope you will still find this report valuable and understand that this change is a result of our continuing efforts to reduce the cost of providing services.

You can access current (and past) issues online, free-of-charge, at http://www.dof.ca.gov/HTML/FS_DATA/Fs_home.htm. The report itself is available in PDF format and the standard data tables are available in Excel spreadsheets.

The online version offers several advantages: you will have quicker access to the latest issue since there will be no waiting for printing and mail delivery; you can easily view, archive, and print reports from your computer; and it is easy to communicate with staff online and have your questions answered. Further, the reduced production and distribution costs will save you, and all taxpayers, money.

We appreciate your understanding and look forward to providing you with the same quality information through electronic means. We strive to provide the best service possible in the most efficient and cost-effective way.

If you would like to receive email notifications when new issues become available, please forward your email address to cecilia.palada@dof.ca.gov.

Sincerely,

Economic Research Unit
(916) 322-2263
